Applicant: Karl Knieper
Serial No: 10/710,896
U.S. Filed: 8/11/2004
For: Convertible Vehicle

Commissioner for Patents

Alexandria, VA 22313-1450

INFORMATION DISCLOSURE STATEMENT

In accordance with 37 CFR § 1.56, Applicant wishes to call the attention of the Examiner to the reference(s) cited on the attached form PTO-1449. Copies of the listed documents (except U.S. patents and published U.S. patent applications) are attached.

These references have been cited in a German office action in the counterpart German patent application.

Reference 1) discloses a device for separating a trunk space 6 from a storage space for a top 2, comprised of parts 3 and 4, of a convertible. As shown in Figs. 1, 2, 3, the device is comprised of two elements 11, 12 that are connected by a hinge (13; Fig. 4) to one another. The element 11 is attached to the vehicle frame by a pivot device (15; Fig. 4) so that it can be moved from a horizontal position (Fig. 1 and Fig. 3) into a vertical position (Fig. 2). In the position illustrated in Figs. 1 and 3, the elements 11, 12 provide

space 5 for receiving the top (shown in the folded-down position in Fig. 3). In the position shown in Fig. 2, the elements 11, 12 are moved into a position for increasing the trunk space 6.

Reference 2) discloses a partition 6 between a storage space 3 for the top 2 of the convertible and a trunk space 4. Fig. 1 shows the partition in an upright position, with the top 2 stowed in the storage space 3 and luggage in the trunk 4. The partition 6 contacts a switch 8 that sends a signal to a release device of the top 2 only when contacted by the partition 6 so that the top can be stowed only when the partition 6 is upright. Fig. 2 indicates by the arrow that the partition 6 can be folded forward when the top 2 is up. Fig. 3 shows the partition 6 in the folded down position so that the trunk is enlarged. Fig. 4 shows the rear seats folded forward so that the trunk space is enlarged even more.

It is respectfully requested that any fees required and not enclosed herewith or any shortages in any fees be charged to Deposit Account 50-1199.

Consideration of the foregoing in relation to this application is respectfully requested.

Respectfully submitted January 14, 2005,

Ms. Gudrun E. Hockett, Ph.D.
